April 12, 2011

This year's National Edulog conference has proven to be one of the best yet! I didn't miss a class. Even after 18 years of using Edulog I walked away from each session having learned something new. The networking is a big plus & the Edulog staff makes themselves readily available to answer any questions & provide personal customer satisfaction. I couldn't wait to get back to our district & apply some of the things I learned.

We are looking forward to our meeting with Ross on May 18th to review our districts needs.

Keep up the great job!

Sincerely,
