Dear Edulog,

I love my job, and a big part of that is because Edulog makes it so easy. I am one of the primary routers at Aldine ISD in North Houston, and we use Edulog. It is very easy to work with and you can put in as much or as little information into it as you want. Of course, the more information you feed it, the better your results are. With any routing software, you are going to have a lot of work involved getting it going and maintained. I really love working with Edulog. I find something new and wonderful about it everyday and I have been working with it for more than five years now. The customer service is also hard to beat. Anytime I have needed help, there is always someone to call or email and I usually get a response very quickly. Check out their website [www.edulog.com](http://www.edulog.com).

Sincerely,  
Brigitte Marcantel
