At M-S CUSD#3 we are currently running 20 routes daily both AM and PM. After instituting Edutracker we are looking at a reduction of approximately 10,000 miles in our next school year. The ability to see the overlapping miles on our buses will not only save on fuel but, will allow us to better utilize the production of each of our buses.

In this day of economic woes, the money we spent with you is already repaying itself to the district. We are looking forward to adding more of your options in the future and furthering our savings.

Thanks to your product and staff.
