Mr. Mike Darling  
President, Education Logistics  
3000 Palmer Street  
Missoula, MT 59808

Dear Mr. Darling,

On behalf of Mansfield Independent School District, I take this opportunity to thank Education Logistics the fifteen years of using EDULOG bus routing software. We have reached the point that our systems are operating better than ever before, thanks mostly to EDULOG's dedication to attaining our needs.

The Technical Support Staff have always treated us well and have listened to each of our concerns and quickly provided solutions.

The service that EDULOG provides to us is the type of service that any user of a software system will ever experience. EDULOG is dedicated to our success and has a mastery of the system that you will agree is absolutely unbelievable. Their work ethic, demeanor, and success rate should be emulated within other software support staffs.

We appreciate all of the hard work and commend your staff for the job well done.

Sincerely,

Charles Stone  
Director of Transportation
