## **Senior Front End Software Development Engineer at Education Logistics, Inc. (EDULOG)**

EDULOG is a world leader in Student Transportation Systems and we are growing! We are looking for a Front-End Developer who is motivated to combine the art of design with the art of programming. The ideal candidate will bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works. The successful candidates will bring an abundant curiosity and desire to innovate. We have a passion for technology, customer commitment, and innovation. This is an exciting opportunity to join a mission-critical enterprise-wide development project from the ground up in a collaborative and creative atmosphere where innovative ideas are encouraged and appreciated.

### **THE ROLE AND RESPONSIBILITIES**

As an expert with deep understanding of JavaScript and its frameworks, you will be tasked with building rich, modern front-end experiences for our customers. This is an excellent opportunity for someone passionate about great UX and entails a high level of personal ownership over application architecture and design.

### **MUST HAVES:**

- Experience building production-quality applications using HTML5, CSS3, SVG, JavaScript, JSON, AJAX.
- Proficient knowledge of frameworks such as React and Flux/Redux (preferred) or Backbone/Angular/Ember
- Fluency in advanced JavaScript topics such as closures, prototypical inheritance, performance profiling, cross-browser polyfills and MVC/MVVM
- Fluency in asynchronous programming patterns in JavaScript (Promises, Callbacks, Error Handling, Web Sockets, Web Workers)
- Building and maintaining unit tests using frameworks
- Fluency in RESTful Web Service architecture
- Experience with Continuous Integration and Agile development methodologies
- Excellent technical skills and knowledge, with the ability to work well with others.
- Excellent verbal and written communication skill.
- Well-developed organizational and analytical skills.
- Ability to thrive in a fast-paced working environment.

### **NICE TO HAVE:**

Education Logistics, Inc. is an equal opportunity employer.

Education Logistics, Inc. | 3000 Palmer Street | Missoula, MT 59808 **Smarter Transportation.** | [www.edulog.com](http://www.edulog.com)

- Cloud Computing (Amazon Web Services, Azure, etc.)
- Experience with traditional OOP languages (C#, Java, etc.)
- A record of open source contribution

#### EDUCATION REQUIREMENTS & QUALIFICATIONS

- Bachelor's degree in Computer Engineering or related field.
- 4+ years JavaScript engineering and integration experience
